

## Internet Safety

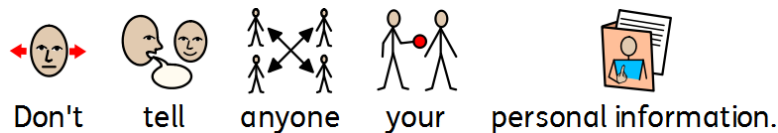

The internet is wonderful. It can be a great place to play games and you can learn lots but it can also be dangerous. Here are some ways you can stay safe online.

### Top Tips For Staying Safe Online:

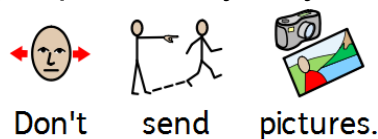

- Always ask a grown up before you use the internet on a tablet, phone or computer and stay in the same room as them.

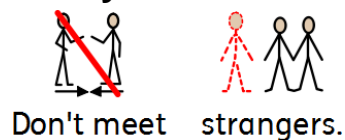

- People you don't know, even those online, are strangers. Don't tell anyone online where you live, your phone number or where you go to school. Only your friends and family need to know that.

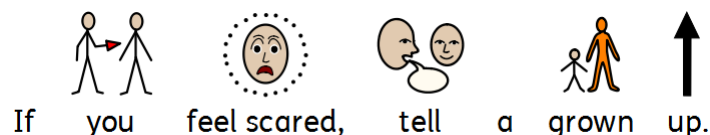

- Don't send pictures to people you don't know, even if they ask you for them. You don't want strangers looking at photos of you, your friends or your family.

- Don't meet anyone you speak to on the internet. If someone asks you to meet them, tell a grown up **straight away**.

- If you see something you don't like or if you feel scared, worried or unhappy, tell a grown up.
